

HLDA9 ANTIBODY VALIDATION FILE

ANTIBODY INFORMATION

Antibody Name: 1774-1; EP449E

Specificity: Cytoplasmic domain of human CD3

Antibody species: Rabbit

Ig Isotype: IgG

Immunogen: A synthetic peptide corresponding to residues in cytoplasmic domain of human CD3 epsilon.

Epitope recognized: Cytoplasmic domain of CD3

Submitter: Maria Frolkis, Ph.D (Epitomics, Burlingame)

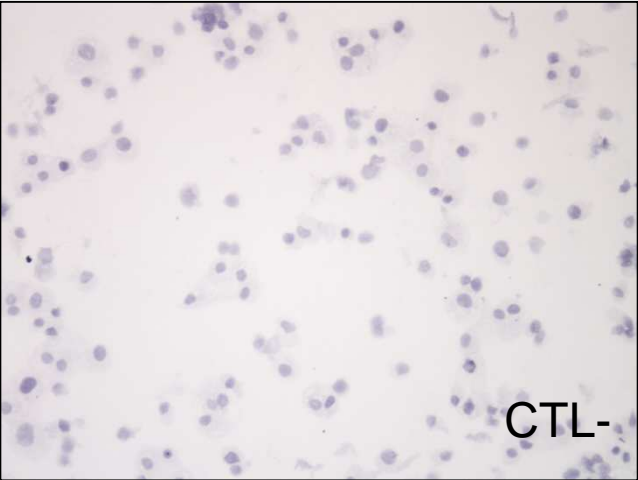

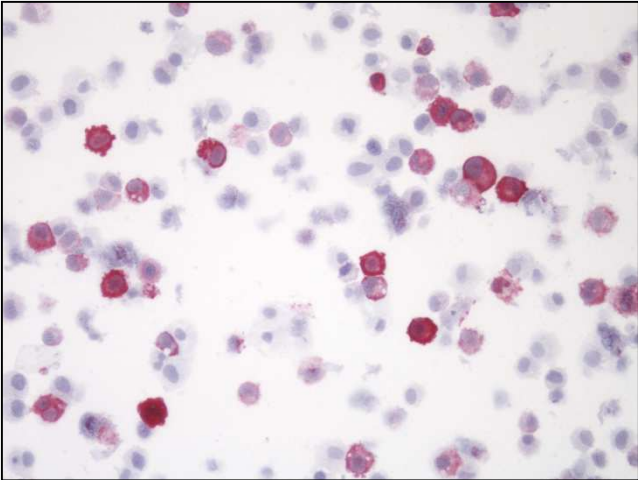

INFORMATION FOR CONFIRMATION OF SPECIFICITY:

Validation of EP449E monoclonal antibody in COS transfected cells. (Fig. 1A)

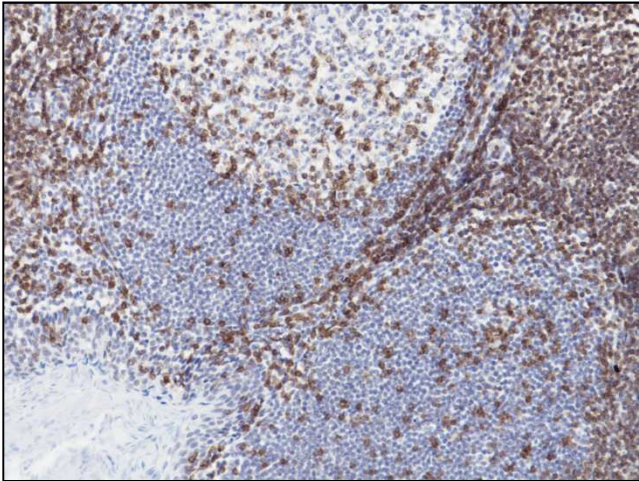

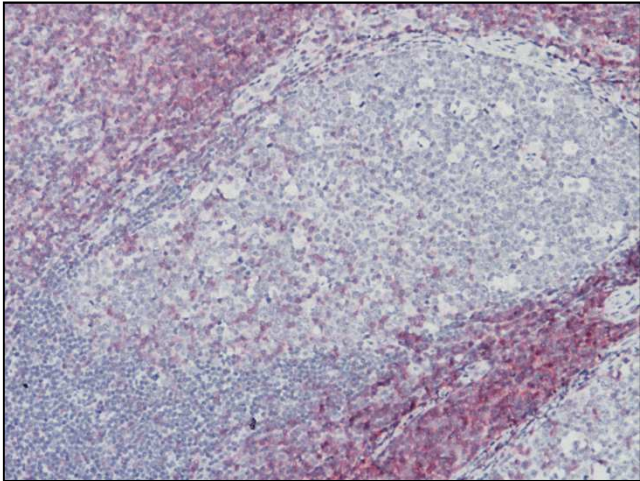

Expression in paraffin human reactive tonsil . (Fig. 1B)
